The iconic lotus-inspired ArtScience Museum at Marina Bay Sands is a living and breathing embodiment of Art and Science.

Through exhibitions, events, performances and educational activities, the Museum explores creative processes at the heart of art, science, technology and culture, and their far-reaching influence in the world we live in.

Since its opening in 2011, it has been home to some of the most renowned exhibitions including *Titanic: The Artifact Exhibition*, *Andy Warhol: 15 Minutes Eternal*, *Da Vinci: Shaping the Future* and *DreamWorks Animation: The Exhibition*.

ArtScience Museum was awarded TripAdvisor's Certificate of Excellence in 2015.

All information is correct at the time of print and is subject to change.

FUTURE WORLD

WHERE ART MEETS SCIENCE

Now Showing | Level B2

Enter a futuristic world of high-tech interactive experiences created in collaboration with teamLab, a renowned Japanese interdisciplinary art collective. Be immersed in a world of art, science, magic and metaphor through a collection of cutting-edge digital installations.

SPOTLIGHT GALLERY TALKS

Saturday - 1, 8, 15, 22 & 29 Jul, 5, 12, 19 & 26 Aug |
11:30am - 12:30pm & 5pm - 6pm

Boundaries between art and technology are becoming increasingly blurred as new grounds are broken in digital artistic expression. Discover the ideas and themes in our permanent exhibition through this series of lively talks, happening at various exhibition zones.

Complimentary to ticket-holders of

DID YOU KNOW?

More than 170,000 LED lights were used to create Crystal Universe, an interactive artwork which gives you an illusion of being in space.

The Universe and Art

An artistic voyage through space

Now showing till 30 Jul | Level 3

The Universe and Art is an artistic voyage through space, exploring where we came from and where we are going. It weaves a rich constellation of Eastern and Western philosophies, ancient and contemporary art, science and religion, to explore how humanity has constantly contemplated its presence in the universe.

Slow Arc inside a Cube VIII
Conrad Shawcross
2017
Steel mesh, mechanical system, light
Commissioned by ArtScience Museum, Singapore

DID YOU KNOW?

You can experience the invisible with this installation as the artist emulates the process of how astronomers work out the structure of invisible celestial phenomena. Catch it before the exhibition closes on 30 July!

The Universe and Art : An Artistic Voyage through Space is jointly curated and organised by Mori Art Museum and ArtScience Museum, in association with the Asian Civilisations Museum.

Co-organised with:

In association with:

PUBLIC GUIDED TOUR

Family Fridays - 14 & 28 Jul | 3pm - 4pm

Sunday - 2, 9, 16, 23 & 30 Jul | 5pm - 6pm

MANDARIN:

Saturday - 1, 8, 15, 22 & 29 Jul | 4pm - 5pm

Who are we? What is our place in the universe? How do cultures, art and technology play a part in understanding the cosmos? Join us on an enlightening tour as we journey through time and space to ponder some of the universe's deepest mysteries.

Complimentary to ticket-holders of *The Universe and Art: An Artistic Voyage through Space*. Terms and Conditions apply.

MAKE YOUR OWN CYANOTYPE UNIVERSE

Family Fridays - 14 & 28 Jul | 4:30pm - 5:30pm

Join us in Cyanotype Universe where we use one of the oldest printing techniques to create beautiful photographic blueprints of space.

SPACE QUEST WORKSHOP

Family Fridays - 7 & 21 Jul | 4:30pm - 5:30pm

Get ready for your mission to outer space by completing a series of exciting and hands-on activities in this one-hour workshop.

\$8 per participant for the two programmes listed above.
Up to 20 participants each on a first-come, first-served basis.

For more information on the programmes, please visit MarinaBaySands.com/ArtScienceMuseum

HUMAN+

THE FUTURE OF OUR SPECIES

Now showing till 15 Oct | Level B2

What does it mean to be human in a world of cyborgs, robots and clones? Should we use science and technology to enhance or modify ourselves?

Consider the real and imagined possibilities of our future in this thought-provoking exhibition.

PUBLIC GUIDED TOUR

Family Fridays - 7 & 21 Jul, 4, 11 & 18 Aug |
3pm - 4pm

Sunday - 2, 9, 16, 23 & 30 Jul | 11:30am - 12:30pm

Sunday - 6 & 13 Aug | 11:30am - 12:30pm & 5pm - 6pm

Sunday - 20 & 27 Aug | 5pm - 6pm

MANDARIN

Sunday - 2, 9, 16, 23 & 30 Jul, 6, 13, 20 & 27 Aug |
4pm - 5pm

How will we enhance ourselves to become better as a species? Through the themes of augmented capacities, new survival strategies and non-human encounters presented in the exhibition, explore what the future holds for us.

Complimentary to ticket-holders of *Human+ The Future of Our Species*.
Terms and Conditions apply.

Centre de Cultura Contemporània de Barcelona.

DID YOU KNOW?

Nadine, the social robot created by scientists at the Institute for Media Innovation at Nanyang Technological University in Singapore, will make her first public appearance in this exhibition.

INTO THE WILD

An Immersive Virtual Adventure

Now On | Free

Make a real-world impact on nature as you go on a virtual adventure using Tango, a cutting-edge interactive technology by Google.

Step into the shoes of a ranger, spot wildlife in their natural habitat, defend the environment, and more. Do your part for nature and pledge your support to restore the rainforests of Southeast Asia.

Into the Wild culminates with a cinematic experience, directed by one of Singapore's leading filmmakers, Brian Gothong Tan. Using state-of-the-art animation and projection-mapping techniques, Tan has created a portal through which you pass from the virtual reality of the digital adventure, into an immersive, cinematic experience on a spectacular scale.

ARTSCIENCE ON SCREEN

ArtScience on Screen explores the intersection between art and science using moving image, video and film.

This rolling programme includes solo showcases, curated programmes, feature-length films, multi-screen presentations and creative documentaries, featuring exciting filmmakers and artists from Singapore and beyond.

ANIME SEASON

ArtScience on Screen presents a season of extraordinary, award-winning animated classics from iconic animation company, Studio Ghibli. Look forward to four masterpieces of astounding visual beauty and imagination from the unrivalled dream factory, running from June to July.

For more dates and timings, please visit MarinaBaySands.com/ArtScienceMuseum

ARTSCIENCE LATE

Every third Thursday of the month | 7pm – 10pm

See a different side of the museum where exploration and experimentation are de rigueur of the night; where artistic collaboration and discovery take over the museum's spaces; where disciplinary boundaries are challenged as performance and new media art collide and meld together.

LALU LALANG LABORATORY (L3)

Thursday - 20 Jul

Charting the Multiverse of our Dreams is a multi-layered inquisition/presentation through dialogue, poetry and science; and the augmentation of our continued fascination for the Moon cycle and the growing interest in Artificial Intelligence (AI).

With impromptu play and extemporaneous divertissement in response to the individual and interwoven energies and ideas of our fellow artists, this synergy of new ideas will manifest itself through vignettes of sound, dance and projected images, immersing the audience in a sensorial voyage through the multiverse.

A multitude of focal points, all coming together at once, this is an experiment that invites the audience to participate by making playful decisions as consumers of the arts.

Joining L3 in this jaunt are Mervin Wong, Swedha Rajaram and Gavin Yap.

For more details, please visit MarinaBaySands.com/ArtScienceMuseum

FABCAFE

MAKE YOUR OWN: ROBOTIC ART

Sundays - 9, 16 & 30 Jul, 6, 13 & 20 Aug | 2:30pm - 4pm

Create a robotic arm using easy robotic components and hydraulics. Use your new arm to create a futuristic cyborg artwork!

\$40 per person. Terms and Conditions apply.

MADE IN SPACE: TOOLS FOR NEW DESIGNED WORLDS

Saturdays - 24 Jun - 19 Aug | 10:30am - 1pm

Made In Space is a series of hands-on workshops and talks inviting people to understand the challenges of designing for space, and to challenge assumptions of what we know about space. Learn to design robots that move in unusual ways, find ways to use radio to communicate with extra-terrestrial life, or build your own cube satellite.

Made In Space invites people ages 15 and up to learn more about the design and technology around space science and space tech from professors and researchers from SUTD, and the various space agencies in Singapore. This series of workshop is organised by the SUTD Digital Manufacturing & Design Centre, CodeKitchen, the FabCafe Community, Singapore Space and Technology Association, Bhattacharya Space Enterprise, Gilmour Space Technology, and more.
