## BUILDING LEGACY INTO BUSINESS EVENTS

Going beyond business transactions and knowledge exchange, today's meeting organisers are looking for ways to create a positive impact and give back to the society. Aside from tourism dollars, there are other powerful and meaningful impacts that MICE business and association events can leave the world.

Here at Marina Bay Sands, our goal is to spark the flame for more global businesses to build legacy into programmes. With our leadership in corporate social responsibility through our Sands for Singapore programme, we help event organisers achieve their corporate giving goals by developing CSR-related or sustainable elements into the programme, and working collaboratively to design a meeting that delivers the best attendee experience.

We also take advantage of our venue's existing sustainable features and infrastructure to offer clients innovative green solutions for their meetings – such as 'zero waste to landfill' events and more. Sustainability is part of our DNA, and we are driven to help every event leave a much deeper and lasting impact on the community.
