DC COMICS™

During the 1930s, the world was beset by economic hardship from the Great Depression and the threat of World War. The public in America looked for distraction, for entertainment and for amusement through motion pictures, magazines, comics and science fiction.

Responding to this need, DC Comics was established in 1934, and after surviving several tumbles, it gave birth to the twin legends of Superman and Batman at the close of the decade.

## LOOK! UP IN THE SKY! IT'S A BIRD! IT'S A PLANE! IT'S SUPERMAN!

In 1938, the struggling comic industry needed a hero, and Superman came to the rescue. The brainchild of Jerry Siegel (writer) and Joe Shuster (artist), Superman was launched in Action Comics #1 (June 1938). Readers responded with rave reviews and Superman became the #1 comic book megastar.

COMIC COVER, SUPERMAN'S OWN COMIC TITLE, SUPERMAN #1 (JUNE 1939)

COMIC COVER, SELF-TITLED COMIC BATMAN #1 (APRIL 1940)

## THE DARK KNIGHT. THE CAPED CRUSADER. THE WORLD'S GREATEST DETECTIVE.

Batman debuted in the lead story of Detective Comics #27 (May 1939). It was written by Bill Finger and drawn by Bob Kane. The character was so successful that one year later the first comic book devoted exclusively to the Caped Crusader's adventures, Batman #1, hit newsstands. In that issue, Batman and his sidekick Robin battled The Joker and Catwoman for the first time.

# FUN FACTS

 DC COMICS PAID \$130 IN 1938 FOR EXCLUSIVE RIGHTS TO SUPERMAN

 BRUCE WAYNE HAS AN IQ THAT OUT-RANGES THAT OF ALBERT EINSTEIN. EINSTEIN'S IQ WAS ESTIMATED TO BE AROUND 160-180. WAYNE'S HAS BEEN ESTIMATED TO BE AROUND 192.

 SUPERMAN'S SIGN, THE BIG DIAMOND-SHAPED "S" ON HIS CHEST, DOES NOT ONLY STAND FOR SUPERMAN. IT IS ALSO A KRYPTONIAN GLYPH THAT IS USED AS A FAMILY SEAL FOR THE HOUSE OF EL. TRANSLATED IT MEANS "HOPE".

 GOTHAM CITY WASN'T INTRODUCED UNTIL 1940; THE NOW ICONIC BAT-SIGNAL DIDN'T SHINE UNTIL 1942. THE BATCAVE WASN'T UNEARTHED UNTIL 1948 (BEFORE THEN, BATMAN HAD BEEN SHOWN TO JUST HAVE A HANGAR IN A DESERTED BARN). THIS DECADE INTRODUCED A LOT OF WHAT MAKES HIM SO ICONIC.

 ALTHOUGH THE MOST RECENT VERSION OF WONDER WOMAN (2011'S NEW 52 ONWARDS) IS A DEMIGODDESS AND THE NATURAL-BORN DAUGHTER OF HIPPOLYTA AND ZEUS, THE CLASSIC VERSION OF THE CHARACTER'S WIDELY ACCEPTED ORIGINS ARE THAT OF A GIRL FORGED AND BIRTHED MAGICALLY FROM CLAY.

 IN 1997, NICHOLAS CAGE EARNED \$20 MILLION TO PLAY SUPERMAN IN SUPERMAN LIVES, EVEN THOUGH HE NEVER ACTUALLY PLAYED SUPERMAN BECAUSE THE MOVIE GOT CANCELLED. NICHOLAS CAGE NAMED HIS SON KAL-EL AFTER SUPERMAN.

 BATMAN'S COSTUME WASN'T ALWAYS SO DARK. BOB KANE'S ORIGINAL DESIGN SAW BATMAN DECKED OUT IN A BRIGHT RED LEOTARD WITH BLACK PANTS, A BASIC BLACK EYE-MASK AND BLONDE HAIR. THE DESIGN FOR BATMAN'S CAPE WERE BASED ON DA VINCI'S SKETCHES.

 THE FLASH GAVE SUPERPOWERS TO HIMSELF. DURING THE "CRISIS ON INFINITE EARTHS" CROSSOVER COMIC, HE RAN SO FAST THAT HE TURNED INTO PURE ENERGY, TRAVELED BACK IN TIME AND HIT HIMSELF AS THE VERY BOLT OF LIGHTNING THAT GAVE HIM HIS SUPERPOWERS IN THE FIRST PLACE.

 WONDER WOMAN'S ALTER EGO IS PRINCESS DIANA OF THEMYSKIRA AND MADE HER FIRST APPEARANCE IN DECEMBER 1941 IN ALL-STAR COMICS #8. HER SIGNATURE WEAPONS ARE HER INDESTRUCTIBLE BRACELETS AND THE LASSO OF TRUTH.

 THE GREEN LANTERN AND WONDER WOMAN WERE SUPPOSED TO BECOME A LOVE-COUPLE, BUT THAT WAS SCRATCHED IN THE 70'S WHEN DC RECEIVED A LETTER BY A FAN THAT SUGGESTED THE SAME IDEA. DUE TO LEGAL REASONS, THIS PROHIBITED DC COMICS FROM MOVING FORWARD WITH THE IDEA.

 THE JOKER CHARACTER IS INSPIRED FROM A 1928 FILM ENTITLED "THE MAN WHO LAUGHS", BASED ON A NOVEL OF THE SAME TITLE BY VICTOR HUGO. THE MAIN CHARACTER, GWYNPLAINE, IS SENTENCED BY HIS KING TO HAVE HIS FACE SURGICALLY DISFIGURED INTO A PERMANENT GRIN FOR CRIMES COMMITTED BY HIS FATHER.

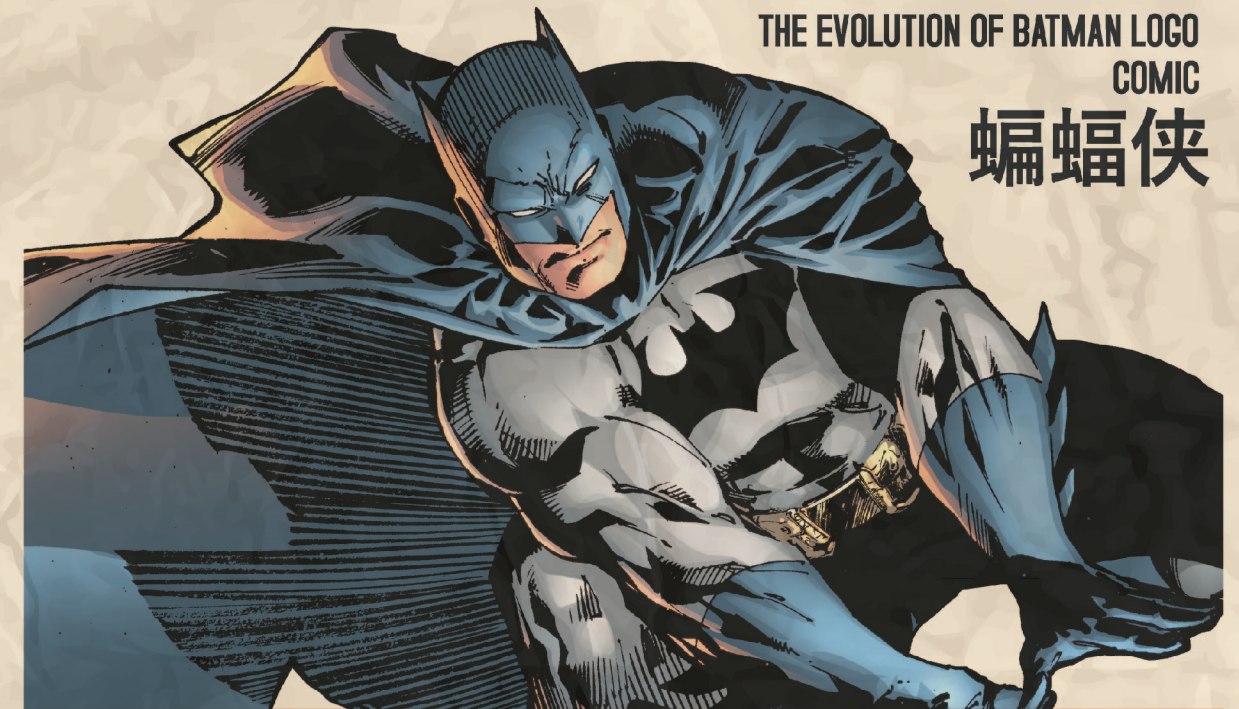

# THE MARK OF BATMAN

THE EVOLUTION OF BATMAN LOGO  
COMIC

蝙蝠侠

<b>1939</b> When Batman first appeared in Detective Comics #27, his chest emblem had neither ears nor a head. The number of wing points along the bottom of the bat varied from panel to panel, but five was most common.	<b>1939</b> Soon the bat sprouted ears, and the rounded edges of the wings became sharper. Seven wing points along the bottom became more common, but it was still occasionally drawn with five.	<b>1940</b> By the time Batman was given his own self-titled series with Batman #1, the bat had grown in size and the head became more visible. Extra details were added to the wings, but were frequently lost in the coloring when printed.	<b>1941</b> The bat wings quickly became more stylized and angular, while the head receded slightly. The wing points along the bottom went back down to five, and became longer and sharper.	<b>1944</b> Over the next four years, the bat gradually widened in size. During this time, it was drawn with anywhere between five and nine wing points along the bottom.
<b>1946</b> As the wings became a little less angular and the head a little more prominent, the bat finally started to resemble the familiar modern emblem, which made what happened next all the more perplexing.	<b>1950</b> As the bat grew even larger in size, the angle of the top of the wings gradually became more rounded, until they were completely over.	<b>1956</b> Eventually the emblem reverted to a more compact and triangular version of the earlier bat. This one appeared on Batman's chest for most of a decade, aside from one minor detour.	<b>1958</b> For a few years, the bat became thinner and wider, with very long, sharp wing points along the bottom. The head also became subtly taller.	<b>1960</b> When the bat reverted to the previous version, the head remained slightly more prominent than before.
<b>1964</b> Although some have speculated that the yellow oval was added to make the bat easier to trademark, the editor simply wanted a "New Look" to more easily distinguish the Silver Age Batman from what came before.	<b>1966</b> The wings soon spread out and filled the oval, resulting in an iconic emblem that lasted over three decades.	<b>1986</b> In Batman: The Dark Knight Returns, an older Batman of the future was shown using the yellow oval to draw gun fire toward his bullet-proof vest. He then changed into a new top featuring a large bat inspired by older emblems.	<b>1987</b> The story of Batman's earliest days was retold and updated in Batman: Year One. Like The Dark Knight Returns, the bat was only loosely based on past emblems. The yellow oval continued to appear in modern day Batman stories.	<b>2000</b> The yellow oval had a 36 year run until it was removed in 2000. The bat that replaced it is similar in shape to the one first worn by Yvonne Craig as Batgirl. Batman's suit was redesigned in 2011, but the bat remains the same.

1941

Superman's big screen debut was a series of animated shorts by Fleischer Studios. The shield was wider – similar to the 1940 emblem – but with the color scheme of the black 1939 insignia.

1948

The shield used in the Superman serials was first worn by Kirk Alyn and later by George Reeves. The serials eventually spun off into a TV series called *Adventures Of Superman*.

1978

The shield worn by Christopher Reeves in the *Superman* movies looked unusually sloppy for a Hollywood costume, possibly to suggest it was hand-sewn by one of the characters in the movie.

1993

Dean Cain's shield wasn't seen very often, as *Lois & Clark: The New Adventures Of Superman* focused less on the Man of Steel's exploits as a superhero and more on the lives of Clark Kent and Lois Lane.

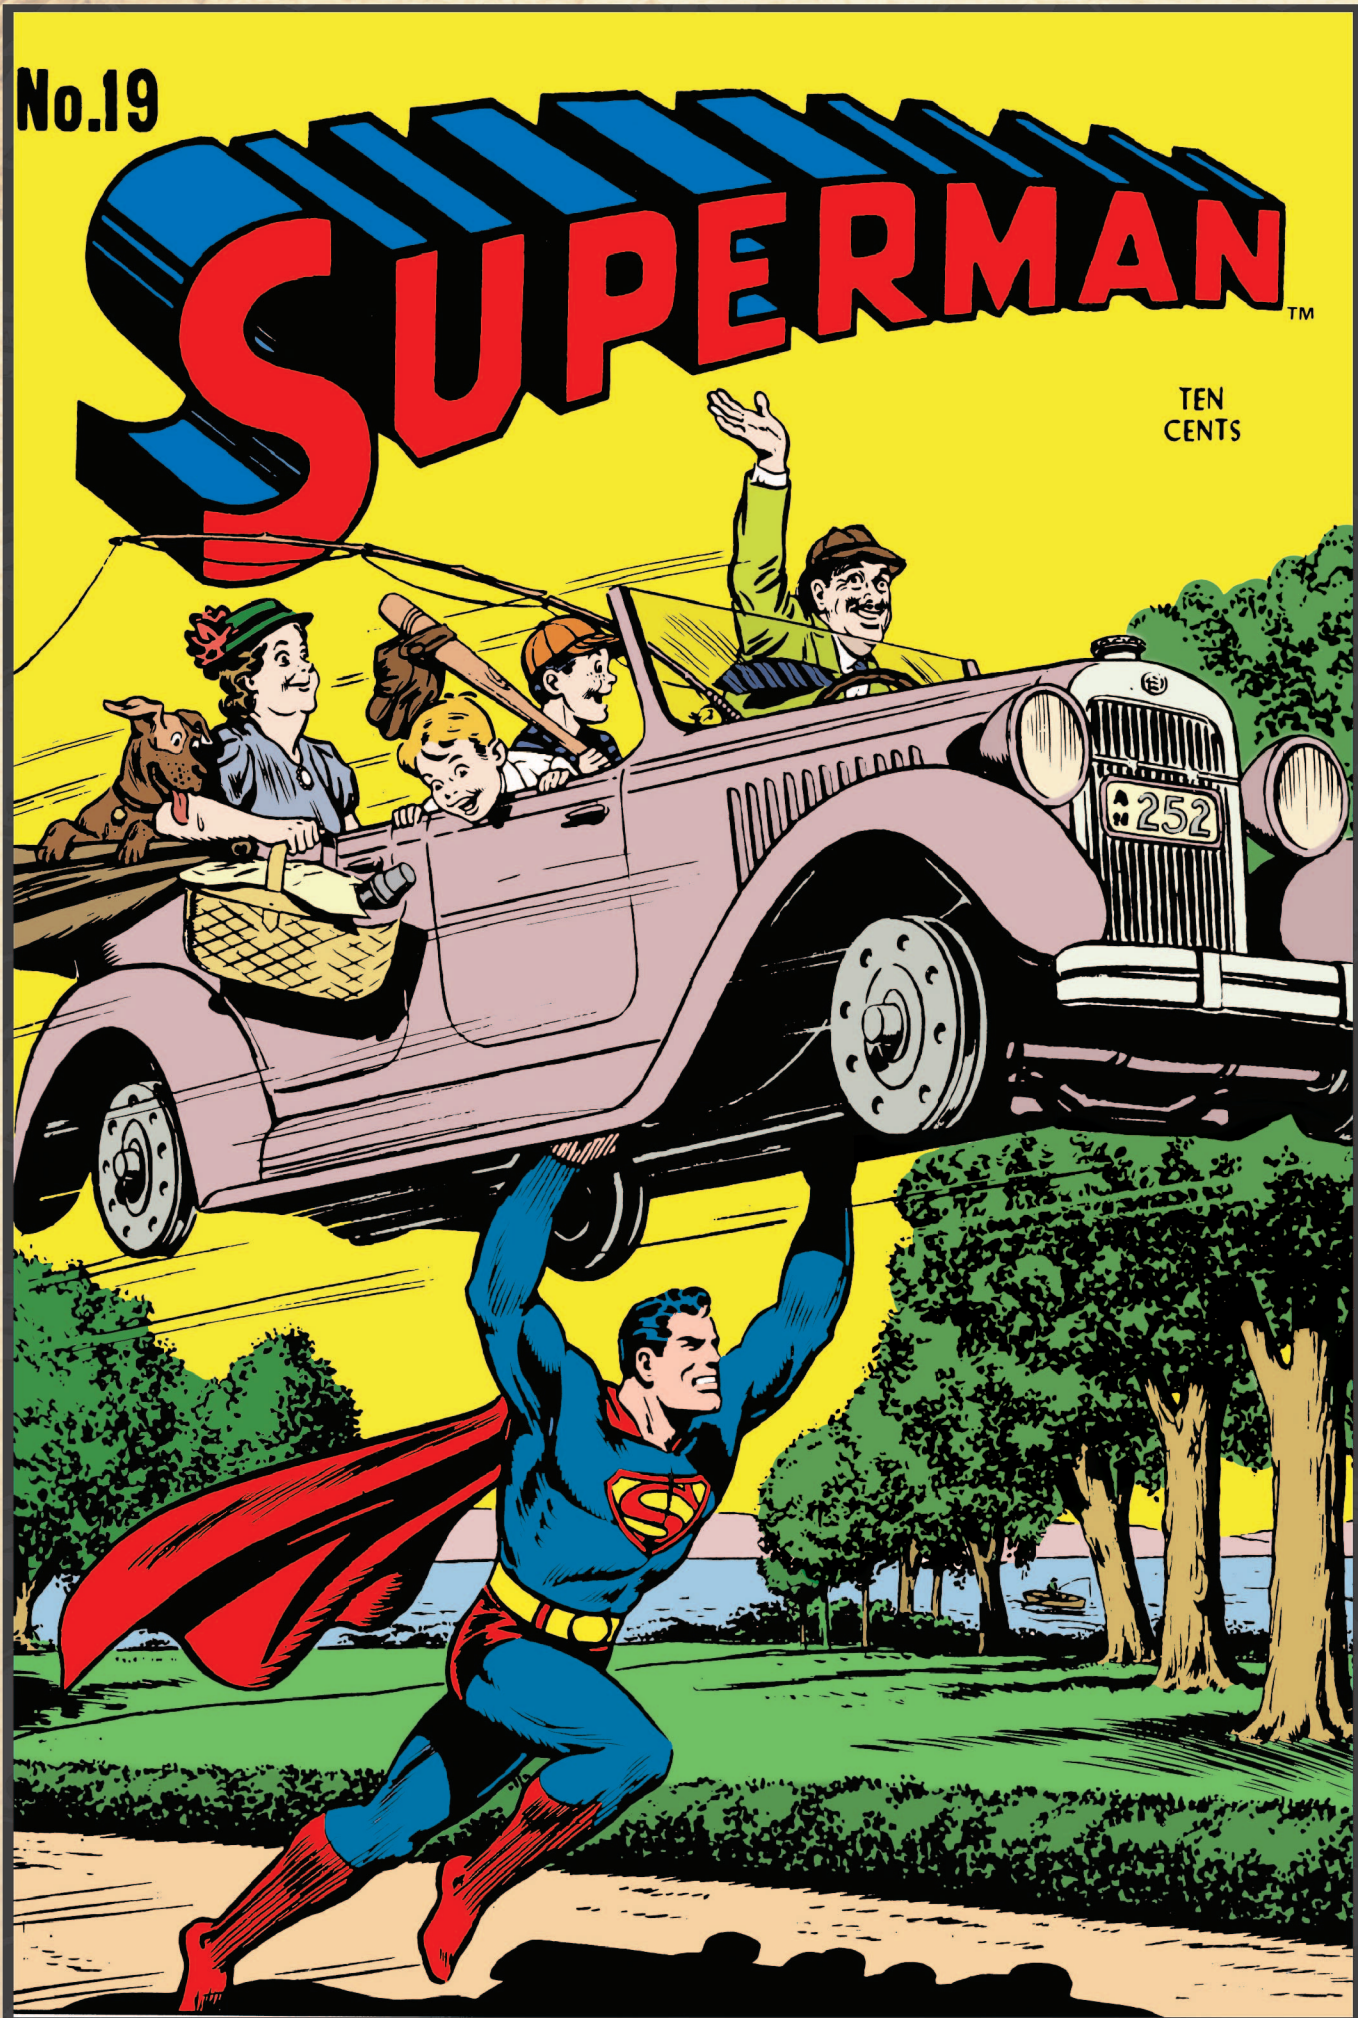

2006

The shield worn by Brandon Routh in *Superman Returns* was the first to be made of something other than cloth. Tom Welling wore the same emblem in the final episode of *Smallville*.

2013

The *Man Of Steel* shield worn by Henry Cavill harkens back to the 1941 emblem, with its large, sharp upper serif. There's also a red-and-black variation.
